Deployment Notes and Updates - Ark

Release Date - February 5, 2026

Updates

ArkLink – Journal Entry Report Formatting

The Journal Entry report no longer introduces unintended paragraph breaks within Line Descriptions. Descriptions now render cleanly and consistently as entered.

General Mailings – Copy/Paste Stability

Users can now copy and paste text and images into General Mailings without encountering save errors.

Journal Entries – Memo Tags Display for Individual Investors

Memo Tags that were previously displayed as *Null* on Journal Entries for individual investors now populate correctly. All associated memo tags display as expected across the Journal Entry page.
