

Ark PES, Inc. | 545 Boylston Street, 6th Floor | Boston MA, 02116

Deployment Notes and Updates - Ark

Release Date - June 29, 2023

Bug fixes & incidentals:

- (5664) Capital Account Statement summaries are now working for summaries with 1-7 lines of text. Prior to this fix, if the summary had 6 or more lines, it would push the body of the report to page 2 of the Capital Account Statement.
- (5624) Contact phone numbers are now being saved upon a Contact upload template. Prior to this fix, if a user uploaded a contact update via upload, the phone number saved on the Contact record would be wiped. This is now persisting, as expected.
